Acknowledgements

This directory is an update of the 2002 Roanoke Valley Emergency Resource Directory and was prepared by the Roanoke Valley-Alleghany Regional Commission. It contains emergency services contact information for local, state, and federal emergency agencies, public and private resources and services, and community services available to assist emergency agencies and personnel.

Private companies and organizations entered no contract or agreement to assist with emergency response efforts as a part of their inclusion in this directory.

Special thanks is given to the members of the Roanoke Valley Emergency Planning Committee for their ongoing cooperation, input and support in the development of this directory.

May 2009

Private Contractors

The Virginia Department of Professional and Occupational Regulation issues three types of contractor's licenses or certificates—Class A, B, or C. Usually the type of license earned is based on the value of contracts the business will work on. A description of each class follows:

A **Class A contractor** works on single contracts for \$70,000 or more or contracts totaling \$500,000 or more over a one-year period (company must have a net worth of at least \$45,000).

A **Class B contractor** works on single contracts for \$7,500 or more but less than \$70,000 or contracts totaling \$150,000 or more but less than \$500,000 over a one-year period.

A **Class C contractor** works on single contracts for \$1,000 or more but less than \$7,500 or contracts totaling less than \$150,000 over a one-year period.

Building Contractors
